

## Clayton Plant Protection are delighted to announce the appointment of Laura Buckingham to their growing team.

*"I am delighted to be joining the team at Clayton and excited to be working for the company as it continues to develop it's excellent range of products. I have worked with Clayton in previous roles and always been impressed with the way in which they are able to deliver quality products and service to their customers."*

Laura Buckingham

### **Appointment of Laura Buckingham - Wednesday 11th May 2022**

Clayton Plant Protection are pleased to announce that Laura Buckingham will be joining the business on 18th May as Business Development Manager. Laura brings a wealth of experience gained during her previous employment with Frontier Agriculture and more recently Fram Farmers where she headed up the crop inputs team. Significant investment is delivering a rapid increase in Clayton's range of post patent plant protection products in the UK and European markets. Laura will support the further growth and development of the business by working closely with Clayton's UK network of distributor partners, agronomists, buying groups and farmers to ensure the highest level of customer service is maintained and the brand recognised across the market. Laura will also support the existing management team to identify and develop key growth opportunities and partnerships to secure the future growth of the business.

*"We are very pleased to welcome Laura to the team at this exciting time for the business. Laura comes from a farming background and has gained wide industry experience, beginning her career as an agronomist for Frontier Agriculture before joining Fram Farmers. Laura managed Fram Farmers' crop production team and was directly involved in the procurement of crop protection for the group. She was also a member of the AICC and worked as an independent crop consultant. Laura's experience, expertise and focus on customer service will be a real asset to the business."*

David O'Mahony  
Managing Director, Clayton Plant Protection Ltd
